Chapter 14, Paragraph: 144, read:

The three **Hooper Islands** divide Honga River from Chesapeake Bay and Tar Bay. Middle and Upper Hooper Islands are connected with each other and with the mainland by bridges. **Hoopersville** is a village with general stores and packing plants on Middle Hooper Island, 3.5 miles above the southern entrance of Honga River. A dredged channel in **Muddy Hook Cove**, which is marked by a light and daybeacons, leads to a fish company-owned wharf at the village. In 2011, the controlling depth was 3 feet in the channel with 1 to 3 feet in the basin. A charted wreck just north of the channel covers at high water and is hazardous to navigation. Gasoline and diesel fuel are available at the wharves.
